McMillan Introduces a Series of Extreme Outer Limits Long Range Hunting Rifles

Phoenix, Arizona (January 15, 2012) – McMillan launches three Extreme Outer Limits (EOL) rifles optimized for ultra-long range hunting. The series includes the McMillan EOL Outdoorsman, McMillan EOL LRH-L (Light) and McMillan EOL LRH. Rifles are available in long range hunting calibers that have been selected for superior ballistics at extreme long range and include special EOL chambers tuned for Berger hunting bullets. Long barrels facilitate maximum velocity from the cartridges and all rifles are built with match-grade components and benchrest accuracy tolerances. McMillan developed the EOL series in conjunction with Bob Beck, host of Extreme Outer Limits television show featured on the Sportsman Channel.

Calibers for the McMillan EOL series include 7mm Remington Ultra Mag, 300 Remington Ultra Mag and 30-378 WBY Magnum, all with EOL chambers. EOL chambers are similar to standard factory chambers, but the chamber throat is cut specifically so that Berger's streamlined long-range hunting bullets are seated to touch the rifling. This is preferred for enhanced accuracy with long-range bullets as offered by Berger Bullets and other custom manufacturers. All McMillan EOL rifles will chamber and fire standard factory ammunition, as well as specialized McMillan EOL ammunition now available through McMillan that is loaded with Berger hunting bullets.

“There is a growing trend in ultra-long range marksmanship. Shooting at long distances demands the utmost from hunters and equipment. As a result, the McMillan EOL series is specifically designed as the state of the art in precision ultra-long range hunting,” said Kelly McMillan, president of McMillan Group International.

The McMillan EOL Outdoorsman is built on a McMillan G30 long action and comes with the McMillan Hunter stock with EDGE[®] ultralight graphite technology. It includes a fluted Schneider polygon match grade stainless barrel of 26” length with a #5 taper. The rifle is drilled and tapped for a scope and includes a 20 MOA Picatinny style scope base rail. A one-piece hinged floorplate and a muzzle brake are standard. The rifle weight is between 7 lbs. 14 oz. and 8 lbs.

The McMillan EOL LRH-L (Light) is built on a McMillan G30 long action and comes with the McMillan Tactical Hunter stock with EDGE[®] ultralight graphite technology. It includes a fluted Schneider polygon match grade stainless barrel of 26” length with a #5 taper. The rifle is drilled and tapped for a scope and includes a 20 MOA Picatinny style scope base rail. A one-piece hinged floorplate and a muzzle brake are standard. The rifle weight is between 7 lbs. 14 oz. and 8 lbs.

The McMillan EOL LRH is built on a McMillan G30 long action and includes the McMillan A-3[™] LRH stock with EDGE[®] ultralight graphite technology. It includes a fluted Schneider polygon match grade stainless barrel of 26” length with #6.5 taper. The rifle is drilled and tapped for a scope and includes a 20 MOA Picatinny style scope base rail. A one-piece hinged floorplate and a muzzle brake are standard. The rifle weight is between 9 lbs. 4 oz. and 9 lbs. 6 oz.

McMillan EOL stocks are painted in McMillan’s new speckletone granite finish introduced in 2012. Metalwork is matte black. Bolts are NP3 coated for lubricity and durability.

McMillan EOL rifles are available individually or as long-range hunting packages. Packages can be purchased with select Nightforce scopes, Nightforce rings, Nightforce Angle Degree Indicator (ADI), and Nightforce cap with ADI mount at favorable package pricing.

About McMillan

McMillan Group International, located in Phoenix, Arizona, is the corporate parent for a family of firearms companies committed to excellence in the firearms industry. Companies include McMillan Firearms Manufacturing, a manufacturer of the McMillan tactical and hunting rifles; McMillan Fiberglass Stocks, a leading manufacturer of premium custom fiberglass stocks for hunting, competition, tactical, and OEM markets; and McMillan Machine Company, a contract manufacturer of precision machined parts. For additional information visit McMillan's website, www.mcmillanusa.com or call 877-365-6148.
